

I have been listening to Klove now for several years and am both a financial and prayer supporter. Klove helps me through the night when I am at work (law enforcement) and give me a much needed, happier outlook. I would not want to imagine what it would be like not to have Klove as part of my day. Klove provides hope to a hurting world. Please don't allow anything to hinder the broadcast capability of Klove. My best friend is now out of a very bad relationship because of Klove and I am forever grateful.
